

US-500 AI-Libre Urinalysis Analyzer

Results
Just In
Minutes **1**

Key Features & Advantages

AI-Driven Precision

Advanced AI for accurate, automated urine sediment analysis. Eliminates manual errors and subjectivity in diagnostics.

Seamless Data Connectivity

LIS/HIS integration for real-time data sharing and efficient result management.

Fast & High-Throughput

Results in 1 minute, processing up to 120 samples/hour. Reduces manual workload and speeds up lab efficiency.

Compact & Low-Maintenance

Space-saving design, ideal for labs with minimal upkeep needs.
