

URIT UC-58

Advanced Urine Analyzer for Efficient Diagnostics

The URIT UC-58 is a high-performance semi-automated urine analyzer designed for rapid and reliable urinalysis. With advanced optical technology, user-friendly operation, and high throughput, it provides accurate test results for clinical laboratories, hospitals, and diagnostic centers.

Key Features & Benefits

-  **Fast & Accurate Urinalysis**
Capable of analyzing 14 parameters for comprehensive urine screening.
-  **Reliable Optical Detection Technology**
Ensures high precision and consistency in urine test results.
-  **User-Friendly Touchscreen Interface**
Large LCD display with intuitive navigation for easy operation.
-  **High Throughput**
Up to 120 tests per hour for efficient workflow management.
-  **Compact & Durable Design**
Lightweight and space-saving for easy placement in any lab.
-  **Data Storage & Connectivity**
Internal memory for storing over 1000 test results. USB & LIS connectivity for seamless data transfer.

Technical Specifications

- ✓ **Test Parameters:**
14 urine parameters analyzed
- ✓ **Throughput:**
Up to 120 tests per hour
- ✓ **Screen:**
Large LCD touchscreen for easy operation
- ✓ **Data Storage:**
1000+ results with USB & LIS connectivity
- ✓ **Detection Method:**
Advanced reflectance photometry for high accuracy
- ✓ **Power Supply:**
AC adapter for stable and reliable performance

Why Choose URIT UC-58?

Reliable & high-speed urine analysis

User-friendly operation & seamless connectivity
